# Independent Auditor's Report to the Members of ABN 17 006 852 820 Pty Ltd

## Report on the Audit of the Financial Report

### Opinion

We have audited the financial report of ABN 17 006 852 820 Pty Ltd, which comprises the consolidated statement of financial position as at 30 September 2018, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of ABN 17 006 852 820 Pty Ltd is in accordance with the *Corporations Act 2001*, including:

i) giving a true and fair view of the Group's financial position as at 30 September 2018 and of its financial performance for the year then ended; and

ii) complying with Australian Accounting Standards and *the Corporations Regulations 2001.*

### Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the 'auditor's responsibilities for the audit of the financial report' section of our report. We are independent of the entity in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Material uncertainty related to going concern

We draw attention to Note 1 in the financial report, which indicates that ABN 17 006 852 820 Pty Ltd incurred a net loss of $4,334 during the year ended 30 September 2018 and, as of that date, ABN 17 006 852 820 Pty Ltd's total liabilities exceeded its total assets by $192,603. As stated in Note 1, these events or conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the ABN 17 006 852 820 Pty Ltd's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

### Directors' responsibility for the financial report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the entity or to cease operations, or have no realistic alternative but to do so.

### Auditor's responsibility for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at The Australian Auditing and Assurance Standards Board website at: www.auasb.gov.au/auditors_responsibilities/ar3.pdf. This description forms part of our auditor's report.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 SEPTEMBER 2018**

## Note 1 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The financial report is a general purpose financial report prepared to satisfy the financial report preparation requirements of the *Corporations Act 2001*.

ABN 17 006 852 820 Pty Ltd is a company limited by shares, incorporated and domiciled in Australia.

The financial report covers the economic entity of ABN 17 006 852 820 Pty Ltd and its controlled entity, The Cylinder Company Pty Ltd which is incorporated and domiciled in Australia.

The financial report has been prepared for a for-profit entity, with the Australian Dollar as presentation currency and amounts rounded to the nearest whole dollar.

### Basis of Preparation

The financial report is a general purpose financial report, which has been prepared in accordance with Australian Accounting Standards, including Australian accounting interpretations, other authoritative pronouncements of the Australian Accounting Standards Board & The Corporations Act 2001.

The financial report of ABN 17 006 852 820 Pty Ltd complies with Australian Accounting Standards. Material accounting policies adopted in the preparation of these statements are stated below and were consistently applied unless otherwise stated.

The financial statements were authorised for issue on 12 December 2018 by the directors of the company.

### Reporting Basis and Conventions

The financial report has been prepared on an accruals basis and is based on historical costs modified by the revaluation of selected non-current assets, and financial assets and financial liabilities for which the fair value basis of accounting has been applied.

### Accounting Policies

The following is a summary of the material accounting policies adopted by the company in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

**(A) Significant Accounting Policies**

Accounting policies are selected and applied in a manner which helps ensure that the resultant financial information satisfies the concepts of relevance and reliability, thereby, ensuring that the substance of the underlying transactions and other events is reported. The financial report has been prepared on an accruals basis and is based on historical costs and does not take into account changing money values or, except where stated, current valuations of non-current assets. Cost is based on the fair values of the consideration given in exchange for assets. The accounting policies have been consistently applied, unless otherwise stated.

**(B) Plant and Equipment**

Depreciation has been charged in the accounts using either the reducing balance or straight line method on all classes of depreciable assets so as to write off their book value over the estimated useful life of the asset. The following estimated useful lives are used in the calculation of depreciation. Plant and Equipment 4 – 8 years.

**(C) Inventories**

The Company has:

(i) Valued stocks at the lower of cost and net realisable value.

(ii) Calculated costs by including all variable manufacturing cost, and an appropriate portion of fixed manufacturing cost, but excluding selling, distribution and administration expenses.

(iii) Assigned cost to inventory quantities on hand at balance date on a first in first out basis.

**(D) Research and Development Expenditure**

Expenditure during the research phase of a project is recognised as an expense when incurred. Development costs are capitalised only when technical feasibility studies identify that the project will deliver future economic benefits and these benefits can be measured reliably.

Development costs have a finite life and are amortised on a systematic basis matched to the future economic benefits over the useful life of the project.

**(E) Employee Entitlements**

Provision is made for benefits accruing to employees in respect of annual leave and long service leave when it is probable that settlement will be required and are capable of being measured reliably.

Provisions made in respect of annual leave and long service leave, expected to be settled within 12 months and after 12 months are measured at their nominal values plus related on costs.

**(F) Leases**

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership, are transferred to entities within the economic entity are classified as finance leases. Finance leases are capitalised recording an asset and a liability equal to the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated to the reduction of the lease liability. Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

**(G) Comparative Figures**

Where required by Accounting Standards comparative figures have been adjusted with changes in presentation for the current financial year.

**(H) Receivables**

Trade receivables and other receivables are recorded at amounts due less any provision for doubtful debts.

**(I) Recoverable Amount of Non-Current Assets**

Non-current assets are written down to recoverable amount where the carrying value of any non-current assets exceed recoverable amount. In determining the recoverable amount of non-current assets, the expected net cash flows have been discounted to their present value.

**(J) Payables**

Trade payables and other accounts payable are recognised when the economic entity becomes obliged to make future payments resulting from the purchase of goods and services.

**(K) Revenue**

Revenue is recognised upon the invoicing of services rendered. Interest revenue is recognised when accrued.

**(L) Provision for Warranties**

Provision is made in respect of the company's estimated liability on products under warranty at balance date.

**(M) Income Tax**

The company adopts the liability method of tax-effect accounting whereby the income tax expense is based on the profit from ordinary activities adjusted for any non-assessable or disallowed items. It is calculated using the tax rates that have been enacted or are substantially enacted by the balance sheet date.

Deferred tax is accounted for using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled. Deferred tax is credited in the income statement except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted directly against equity.

Deferred income tax assets are recognised to the extent that it is probable that future tax profits will be available against which deductible temporary differences can be utilised.

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the company will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

ABN 17 006 852 820 Pty Ltd, which is a wholly-owned Australian subsidiary company, is a member of an income tax consolidated group under the tax consolidation regime. ABN 17 006 852 820 Pty Ltd recognises its own current and deferred tax liabilities, except for any deferred tax liabilities resulting from unused tax losses and tax credits, which are immediately assumed by the parent entity. The current tax liability of the entity is then subsequently assumed by the parent entity. The group notified the Australian Tax Office that it had formed an income tax consolidated group to apply from October 1, 2003. The tax consolidated group has entered a tax sharing agreement whereby each company in the group contributes to the income tax payable in proportion to their contribution to the net profit before tax of the tax consolidated group.

**(N) Borrowing costs**

Borrowing costs are recognised in income in the period in which they are incurred.

**(O) Critical Accounting Estimates and Judgments**

The directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the company.

Key estimates - Impairment

The company assesses impairment at each reporting date by evaluating conditions specific to the company that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined. Value-in-use calculations performed in assessing recoverable amounts incorporate a number of key estimates.

**(P) Going Concern**

Notwithstanding the company’s deficiency in net assets and working capital and an operating loss of $4,334 after tax for the year ended 30 September 2018, the financial report has been prepared on the going concern basis. This basis has been adopted as Sietel Limited, being the ultimate holding company of the company, confirmed to the company that:

1. The amount owing by the company to Sietel Limited of $1,218,656 as at 30 September 2018 shall not be called upon within the current period to the detriment of all other unsecured creditors.
2. If necessary, funds or additional bank security will be provided to the company or its debt financier to ensure that it can meet its current trading obligations that have, or will be incurred.

## (Q) Financial Instruments

### Recognition and Initial Measurement

Financial instruments, incorporating financial assets and financial liabilities, are recognised when the entity becomes a party to the contractual provisions of the instrument. Trade date accounting is adopted for financial assets that are delivered within timeframes established by marketplace convention.

Financial instruments are initially measured at fair value plus transaction costs where the instrument is not classified as at fair value through profit or loss. Transaction costs related to instruments classified as at fair value through profit or loss are expensed to profit or loss immediately. Financial instruments are classified and measured as set out below.

### Derecognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expires or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are either discharged, cancelled or expire. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

### Classification and Subsequent Measurement

(i) Financial assets at fair value through profit or loss

Financial assets are classified at fair value through profit or loss when they are held for trading for the purpose of short term profit taking, where they are derivatives not held for hedging purposes, or designated as such to avoid an accounting mismatch or to enable performance evaluation where a group of financial assets is managed by key management personnel on a fair value basis in accordance with a documented risk management or investment strategy. Realised and unrealised gains and losses arising from change in fair value are included in profit or loss in the period in which they arise.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost using the effective interest rate method.

(iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets that have fixed maturities and fixed or determinable payments, and it is the company's intention to hold these investments to maturity. They are subsequently measured at amortised cost using the effective interest rate method.

(iv) Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either designated as such or that are not classified in any of the other categories. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

(v) Financial Liabilities

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost using the effective interest rate method.

### Fair value

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

### Impairment

At each reporting date, the company assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a prolonged decline in the value of the instrument is considered to determine whether an impairment has arisen. Impairment losses are recognised in the statement of profit or loss and other comprehensive income.

## NOTE 23. FINANCIAL INSTRUMENTS

(a) Significant Accounting Policies
Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which revenues and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in note 1 to the accounts.

The Company's financial instruments consist mainly of deposits with banks, local money market instruments, and accounts receivable and payable.

(b) Interest Rate Risk
The following details the company's exposure to interest rate risk as at the reporting date.

| | 2018 Average Interest Rate % | 2018 Total $ | 2017 Average Interest Rate % | 2017 Total $ |
|---|---|---|---|---|
| **Financial Assets** | | | | |
| Cash | 1.18 | 41,404 | 0.60 | 64,797 |
| | | 41,404 | | 64,797 |

The company has performed sensitivity analysis relating to its exposure to interest rate risk at balance date. The sensitivity analysis demonstrates the effect on the current year results and equity which could result from a change in these risks.

At 30 September 2018, the effect on profit and equity as a result of changes in the interest rate, with all other variables remaining constant would be as follows for interest revenue.

| | **2018** $ | **2017** $ |
|---|---|---|
| Change in profit | | |
| - Increase in interest rate by 1% | 551 | 1,067 |
| - Decrease in interest rate by 1% | (290) | (286) |
| Change in equity | | |
| - Increase in interest rate by 1% | 551 | 1,067 |
| - Decrease in interest rate by 1% | (290) | (286) |

(c) Credit Risk
Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the entity. The entity has adopted the policy of only dealing with creditworthy counterparties and obtaining sufficient collateral or other security where appropriate, as a means of mitigating the risk of financial loss from defaults. The company measures credit risk on a fair value basis.

(d) Net Fair Value
The carrying amount of financial assets and financial liabilities recorded in the financial statements represents their respective net fair values, determined in accordance with the accounting policies disclosed in note 1 to the accounts.

## NOTE 25. NEW ACCOUNTING STANDARDS FOR APPLICATION IN FUTURE PERIODS

The AASB has issued a number of new and amended Accounting Standards and Interpretations that have mandatory application dates for future reporting periods, some of which are relevant to the Group. The Group has decided not to early adopt any of the new and amended pronouncements. The Group's assessment of the new and amended pronouncements that are relevant to the Group but applicable in future reporting periods is set out below:

AASB 9: Financial Instruments and associated Amending Standards (applicable for annual reporting periods commencing on or after 1 January 2018).

AASB 9 includes requirements for the classification and measurement of financial assets and incorporates amendments to the accounting for financial liabilities and hedge accounting rules to remove the quantitative hedge effectiveness tests and have been replaced with a business model test.

AASB 9 improves and simplifies the approach for classification and measurement of financial assets compared with the requirements of AASB 139 as follows:

a) Financial assets that are debt instruments will be classified based on (1) the objective of the entity's business model for managing the financial assets; (2) the characteristics of the contractual cash flows.
b) Allows an irrevocable election on initial recognition to present gains and losses on investments in equity instruments that are not held for trading in other comprehensive income. Dividends in respect of these investments that are a return on investment can be recognised in profit or loss and there is no impairment or recycling on disposal of the instrument
c) Financial assets can be designated and measured at fair value through profit or loss at initial recognition if doing so eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities, or recognising the gains and losses on them, on different bases
d) Where the fair value option is used for financial liabilities the change in fair value is to be accounted for as follows:
    i) The change attributable to changes in credit risk are presented in other comprehensive income (OCI)
    ii) The remaining change is presented in profit or loss.

When AASB 9 is first adopted for the year ending 30 September 2019, there will be no material impact on the financial statements. However, the revaluation of all financial assets that are currently designed as available-for-sale will be debited/credited to the financial assets reserve and there will be no permanent impairment through the profit & loss.

AASB 2012-6 also modifies the relief from restating prior periods by amending AASB 7 to require additional disclosures on transition to AASB 9 in some circumstances. Consequential amendments were made to other standards as a result of AASB 9 by AASB 2014-7 and AASB 2014-8. The mandatory application date of AASB 9 has been deferred to annual reporting periods beginning on or after 1 January 2018 by AASB 2014-1.

AASB 15: Revenue from Contracts with Customers (applicable to annual reporting periods commencing on or after 1 January 2018).

AASB 15 replaces AASB 118 Revenue, AASB 111 Construction Contracts and four Interpretations issued by the AASB and amends the principles for recognising revenue from contracts with customers. It applies to all contracts with customers except leases, financial instruments and insurance contracts.

The Standard requires an entity to recognise revenue on a basis that depicts the transfer of promised goods or services to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that principle, an entity shall apply all of the following steps:

a) identify the contract with a customer;
b) identify the separate performance obligations in the contract;
c) determine the transaction price;
d) allocate the transaction price to the separate performance obligations in the contract; and
e) recognise revenue when (or as) the entity satisfies a performance obligation.

Consequential amendments to other Standards are made by AASB 2014-5 Amendments to Australian Accounting Standards arising from AASB 15. The mandatory application date of AASB 15 has been deferred to annual reporting periods beginning on or after 1 January 2018 by AASB 2015-8

The group has considered the changes in revenue recognition requirements as specified in AASB15. The group does not believe these will have a material impact on the future results of the company.
