REVIEW OF OPERATIONS

All investment properties owned by the Chief Entity have been tenanted for the half year.

Cook's Body Works Pty Ltd has continued to experience varied results with fluctuating demand for its product, thereby hindered profitability.

Cook's management have worked on expansion of the customer base and product offering to improve sale and margin performance of the business.

The Company's management assisted by the non-executive directors have reviewed various investment options in the real estate, listed equities, direct investment and product development markets over the half year with the objective of improving the medium to long term performance of the group.

The directors continue to review the balances of investment fund allocation between cash equivalents and longer term investments such as listed equities, real estate and operating businesses via subsidiary companies with the objective of achieving long term profitable performance, but realising current gains as opportunities arise.

The subsidiary AAA has continued to design and develop products for manufacture by third party offshore manufacturers and commence small scale importation and distribution of a very limited range of domestic gas water heaters and BBQ's into the Australian market.

The Cylinder Company operated in line with budget during the half year.
